

KIDTOWN GUIDE

2K-5K

DATE: 6/14/20

SCRIPTURE: Mark 8:22-26

LESSON: *A Wonderful Sight*

INTRO

Parents say to your kid(s) - Last week, we started learning our story about a time when Jesus healed a man who had not been able to see for his whole life. This week, we are going to learn more about that story and act out part of it together!

- What do you remember from last week?
- What did the blind man see first when Jesus healed him? (*Colors, shapes, and people looking like trees.*)
- What did Jesus do when he healed the man? (*touched his eyes*)

LESSON - A WONDERFUL SIGHT!

One of the most important ways we get to disciple kids is by teaching God's Word and how it points to Jesus. Our preschoolers are going through the God Loves Me Storybooks. These books tell the story of Scripture over 12 books, one for each month of the year. For one month kids hear and interact with the same story so that they can learn it well! Each week there is a different activity for the story.

Parents say to your kid(s) - We're going to read our story, *A Wonderful Sight!*

Act It Out!

To help kids interact physically with the story, act it out. Assign everyone a role to play in the story: the blind man, Jesus and people walking by. As you go through the story, stop on each page and act out the scene.

Parents say to your kid(s) - Ask your kids:

- What would be the hardest thing for you if you were blind?
- What would you miss seeing the most?
- What do you think this man would have felt as Jesus was healing him?

RESPONSE

Parents say to your kid(s) - It's good to respond to learning about Jesus in the Bible. Sometimes we sing because Jesus is worthy of our songs. Sometimes we pray because we need help and God says we can talk to Him about anything! We can also do another activity that relates to our lesson!

Parent Share - Jesus changed this man's life when He healed him. What is one way Jesus has changed your life?

BONUS ACTIVITIES

Bubble Art - *Supplies: bubble solution (or make your own like [this](#)), A bubble wand, food coloring, plastic cups, paper*

This activity can get a little messy, so it is a great one to do outside! You will need a plastic cup for each color that you want to make. Pour a quarter cup or more of the bubble solution into the plastic cups. Mix in about 5 drops of the desired food coloring, repeat this for each color. Stir the food coloring into the bubble solution carefully. Then take the bubble wand and dip it into the cups, blow bubbles onto your paper to create beautiful artwork!

Uno Movement Game - *Supplies: 1 deck of cards or Uno cards*

Grab a deck of cards, Uno is the easiest, but you can do this game with a regular deck of cards as well. Assign a movement to each color (e.g. Red = Stomp, Blue = Hop, Green = Spin, Yellow = Touch your elbow to the opposite knee). Shuffle the deck and take turns pulling out a card. Everyone does the action assigned to the color the number of times of the number on the card (e.g. A Blue 5 = hop 5 times). If you draw a reverse card, reverse the order of turns. If you draw a skip, then skip the next person from drawing a card. If you draw a Draw Two, the next person must draw two cards and combine the actions together (e.g. hop and spin) the number of times of the largest card. If you draw any wild card, the person who drew does whatever dance move they want and everyone follows their lead.
